

HUMBER INSPECTION INTERNATIONAL LIMITED

www.humberinspectionsservices.co.uk

Humber Inspection International Limited is an independent Marine Surveying and Maritime Consultancy business based at the Port of Immingham, UK and is part of the Humber Inspection Services Group. Our team includes experienced Master Mariners and Maritime Professionals with extensive backgrounds in Maritime Operations, Marine Surveying, Quality & Quantity Control, Sampling and Analysis.

Our staff are fully conversant with all aspects of vessel and cargo operations and can offer in depth advice and assistance in a wide range of marine operations.

We offer an efficient and highly professional service with a strong focus on our clients' needs. We only tender for and accept assignments for which we are qualified and have the skills and experience to complete successfully. All of our work is undertaken with an emphasis on safety, quality and environmental protection and is in compliance with the recognized international standards.

We are based at the Port of Immingham, however we serve all ports in the United Kingdom, as our staff are strategically located throughout the country. We are also available to travel overseas on assignments if required. We have an extensive international network of our own overseas offices and associated similarly experienced companies.

Our main activities include:

Marine Operations & Surveys

Cargo Superintendence

Pre-Shipment Inspection

Damaged Cargo Investigation

Petroleum Expedition

Hatch Hose and Ultrasonic Testing

Bunker Survey and Testing

Draught Survey

On/Off Hire Survey

Hold Condition Survey

Analysis – Petrochemicals and Fuels
